Turning Your Dreams
into Reality!

Your gateway to engineering solutions

About Masfy

Masfy Consultants is the powerhouse of East Africa's civil and structural engineering industry. We've played a crucial role in constructing a premium Kenyan property portfolio worth a staggering \$100 Million. Our in-house structural engineering services are seamlessly integrated into the design and delivery process, elevating the overall quality of our projects.

Masfy Consultants, founded in 2012, offers comprehensive civil and structural engineering services. Using advanced tools like Revit, SAP 2000, Civil 3D, Infracore 360, 3DS Max design, and Robot structural analysis, we provide our clients with efficient and cost-effective solutions, including BIM. Our design team prioritizes sustainability, carefully considering the environmental impact of our work and incorporating conservation-focused materials and technologies.

Strategy

OUR VISION

To be the engineering firm of choice for clients who desire a close relationship with, and the highest quality and service from, their civil and structural engineering consultant.

OUR MISSION

To provide high quality, personalized civil and structural engineering design services and to satisfy clients' needs by leveraging highly skilled staff, strong relationships, and cost-effective solutions in an atmosphere that fosters collaboration and creativity.

OUR OBJECTIVES

To combine all applicable problem solving skills in providing solutions that are functionally sound, economically feasible and practical, while maintaining a commensurate standard of technical excellence

WHAT SETS MASFY APART?

- Fully qualified, experienced staff
- Fully insured
- Quality drawings and design calculations
- Value-engineered design & 'optioneering'
- Friendly approach, and plain speaking
- Efficient service with agreed timescales
- Ongoing support and liaison with your contractor & architect

OUR VALUES

- E** Excellence in everything we do
- N** No non-sense approach towards achieving the best
- G** Greatness in all aspects
- I** Inspiration to others and each other
- N** Never say never at anything we are tasked with
- E** Ethical behavior in all our activities
- E** Enhance diversity in our relations towards each other
- R** Real commitment to best practices & solutions

Services

CIVIL ENGINEERING SERVICES

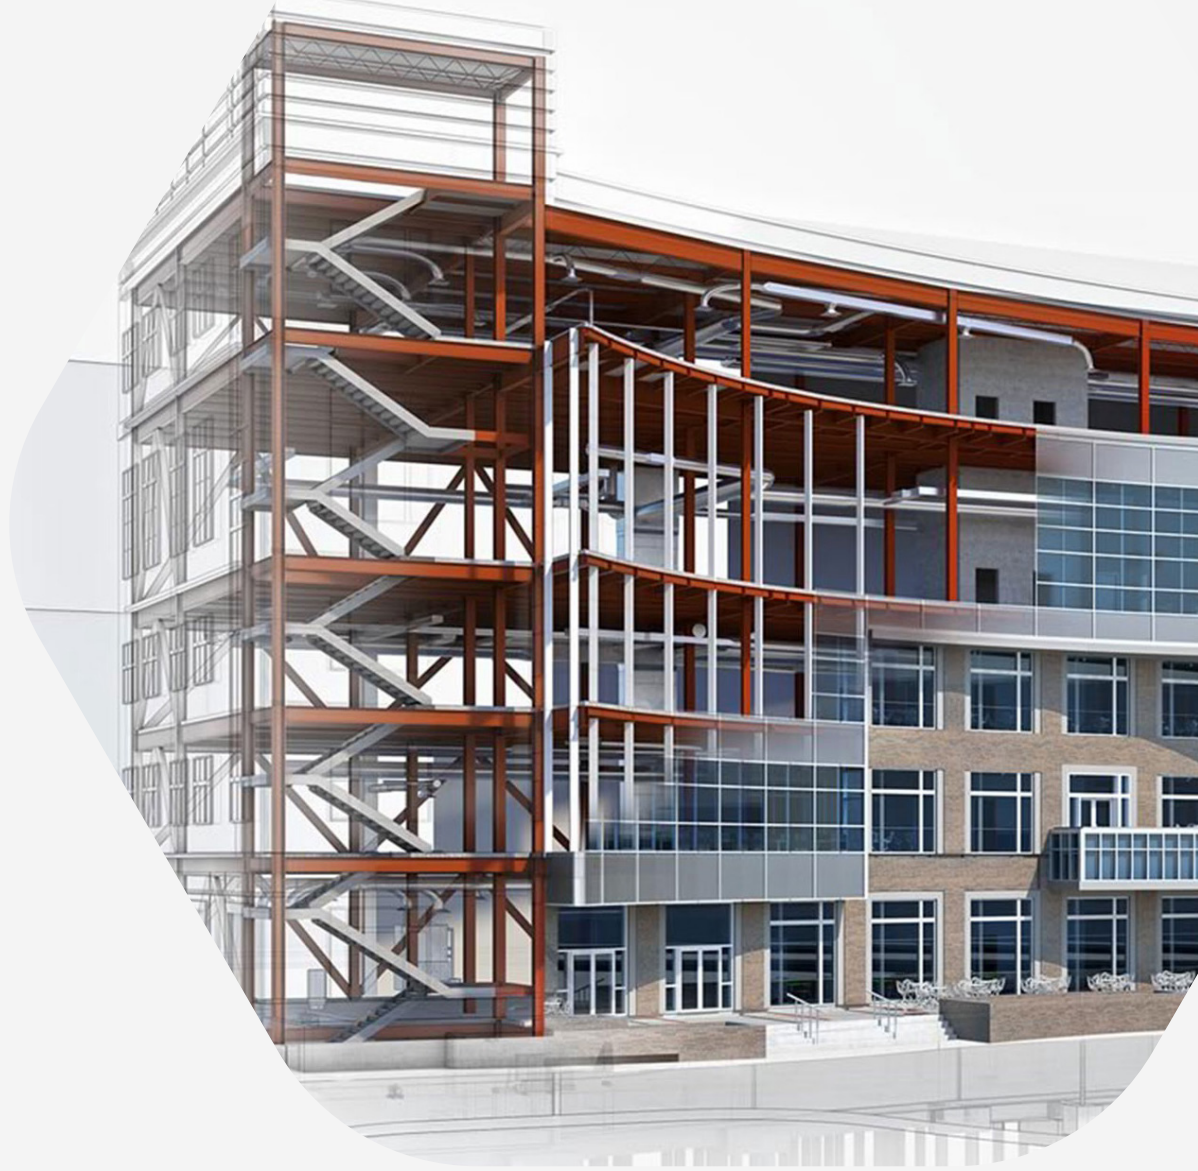

- Development of rural and urban infrastructural master plans.
- Design of site and service schemes.
- Management of water abstraction, treatment, storage, and distribution systems.
- Planning and construction of sewage and industrial effluent drainage, treatment, and disposal systems.
- Implementation of stormwater and land drainage systems.
- Traffic engineering for urban and rural roads, as well as parking facilities.
- Maintenance and rehabilitation of existing infrastructure.
- Conducting traffic impact assessments.

STRUCTURAL ENGINEERING SERVICES

- Multi-story buildings, including both low and high rise structures.
- Industrial and factory facilities.
- Residential structures, such as homes and swimming pools.
- Institutions such as hospitals, educational buildings, and religious establishments.
- Hospitality establishments such as hotels and resorts.
- Recreational and athletic facilities.
- Infrastructure projects such as bridges, culverts, and retaining walls.
- Water management structures such as dams, marine structures, and river training works.
- Storage facilities such as reservoirs and elevated tanks.
- Structural assessments and evaluations through surveys and appraisal reports.

AUXILIARY SERVICES

Geo-technical Engineering:

- Geo-technical Investigations
- Geo-technical Feasibility Studies
- Due-Diligence Geo-technical Evaluations
- Geophysical Studies
- In-Situ Testing
- Slope stability assessments

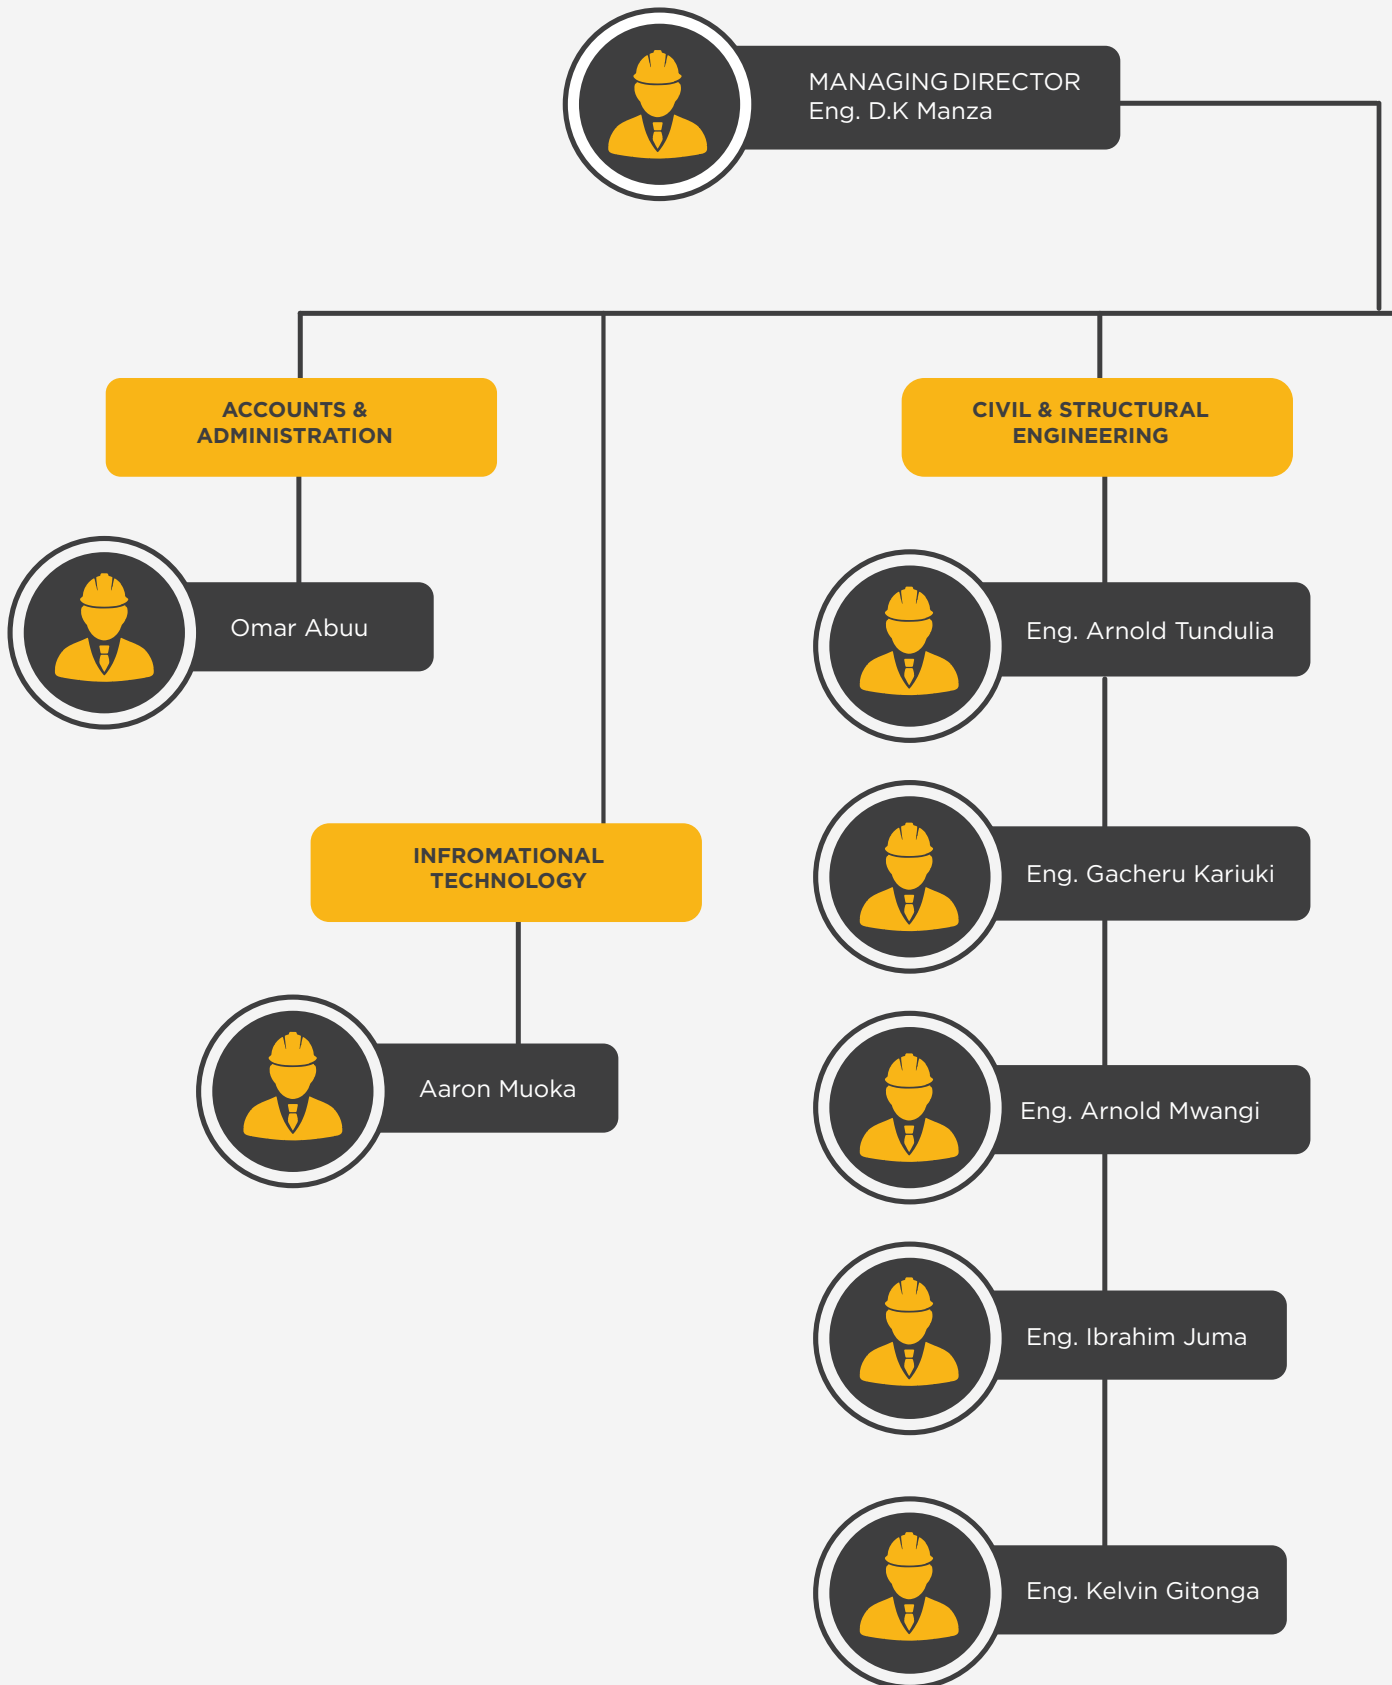

Surveying:

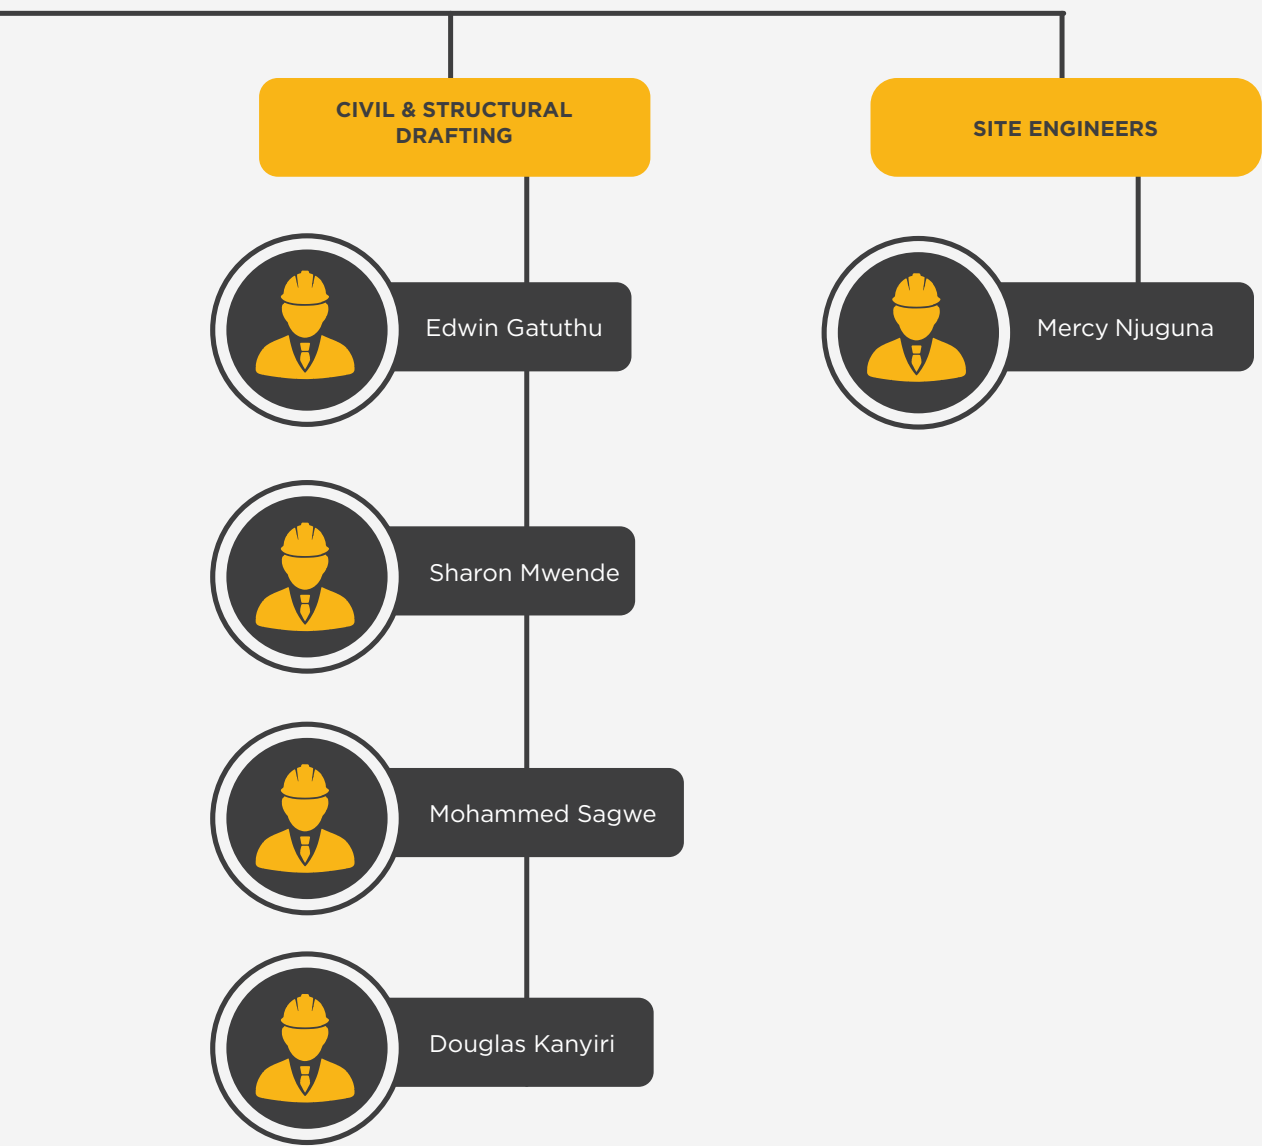

- Cad-astral/Title Surveys
- Topographical Surveys
- Hydro-graphical Surveys
- Cross Sectioning
- Profiling
- Earthworks Volumes Computation

Building Pathologists:

- Building diagnostic reporting
- Assessment of single or multiple defects
- Identification of potential causes and future damage
- Recommended remedial solutions
- Cost of repairs
- Recommendations for further special inspections

Company Structure

STAFF QUALIFICATION

Daniel Kamanza Manza

Manza is an accomplished engineer with over 15 years of experience in the field. He holds a Bachelor of Technology in Civil & Structural Engineering (First Class Honours) from Moi University and a MA in Project Planning & Management from the University of Nairobi. Manza is a registered Professional Engineer of Engineers Registration Board (ERB – A2880) and a registered Corporate Member of Institution of Engineers of Kenya (IEK – M4093). With his extensive education and professional qualifications, Manza has successfully managed numerous engineering projects. His technical expertise and leadership skills have earned him a reputation as a reliable and efficient engineer in the industry.

Arnold Tundulia

Arnold is a seasoned Civil Engineer with 13 years of experience in the field. He obtained a Bachelor of Science in Civil Engineering (Honours) from the University of Nairobi. Arnold is a registered Professional Engineer of Engineers Registration Board (ERB – A3155) and a registered Corporate Member of Institution of Engineers of Kenya (IEK – M4115). He has utilized his technical expertise and professional qualifications to successfully manage various engineering projects. Arnold is well-regarded in the industry for his efficient project management skills and attention to detail.

Kelvin Gitonga

Kelvin is a qualified Civil/Structural Engineer with a BSc in Civil Engineering from the University of Nairobi. With two years of experience and a registration as a Graduate Engineer, Gitonga possesses the expertise to handle diverse engineering projects.

Proficient in AutoCAD, Revit, Civil 3D, Autodesk Robot, and Prota, He utilizes cutting-edge software for accurate design, structural modeling, and analysis. By prioritizing sustainability and safety, He delivers high-quality results that meet client needs.

Arnold Mwangi

Arnold is a Registered Graduate Engineer with the Engineers Registration Board (ERB - B8261), having obtained a Bachelor of Science degree with Honours in Civil Engineering from the University of Nairobi. He has amassed nine years of valuable experience in the field, equipping him with an in-depth understanding of various engineering concepts and practical skills. Arnold's expertise and knowledge make him a reliable and competent civil engineer.

Ibrahim Juma

Juma is a Project Planning & Management MA graduate from the University of Nairobi. He also holds a Bachelor of Science (Honours) in Civil Engineering from the same institution. Juma is a Registered Graduate Engineer with the Engineers Registration Board (ERB – B8506) and has 9 years of experience in the field.

Edwin Gatuthu

Edwin, a Structural Engineering Draughtsman, possesses 9 years of experience in architectural design, and has developed commendable skills in this area. He is certified in both AutoCAD and Revit, and has completed his training at CITECH (Center for Innovative and Technology).

Mohammed Sagwe

Mohammed holds a Bachelor of Science in Mechanical Engineering (Honours) from the University of Nairobi. He also completed Structural Engineering Draughtsmanship training at CITECH (Center for Innovative and Technology). With 9 years of experience in the field, Mohammed has a strong background in both mechanical engineering and structural design.

Aaron Musembi

Aaron holds a Bachelor of Commerce degree with a specialization in Management Information Systems from Daystar University. Additionally, He has completed a program in Structural Engineering Draughtsmanship from Citech (Center for Innovative and Technology). With four years of experience under his belt, Aaron is well-equipped to tackle a variety of challenges in his field.

Omar Abu

Omar is a seasoned professional with nine years of experience in the field of business management. He obtained his Diploma in Business Management from KIM, which has equipped him with a solid foundation in the principles and practices of business. Omar's extensive experience has honed his skills and expertise, making him a valuable asset to any organization.

Project Showcase

Pushing the boundaries of what's possible.

We believe that great projects are achieved through a dialogue between engineers and architects, working with the shared aspiration to achieve simplicity, structural clarity, and sustainability all for our client.
